1

A triangular garden has sides of 3 meters, 250 centimeters, and 0.004 kilometers. What is its perimeter in meters?

Perimeter (2-steps)

2

A rectangular field is 0.02 kilometers long and 1500 centimeters wide. Calculate its perimeter in meters.

Perimeter (2-steps)

3

A regular pentagon has sides of 40 centimeters each. What is its perimeter in meters?

Perimeter (2-steps)

4

An irregular quadrilateral has sides measuring 0.5 meters, 70 centimeters, 0.8 meters, and 90 centimeters. Find its perimeter in centimeters.

Perimeter (2-steps)

5

A regular hexagon has sides of 0.25 meters each. Calculate its perimeter in centimeters.

Perimeter (2-steps)

A trapezoid has parallel sides of 1.2 meters and 140 centimeters, and non-parallel sides of 0.9 meters and 95 centimeters. What is its perimeter in meters?

6

Perimeter (2-steps)

An octagonal playground has sides of 2.5 meters each. What is its perimeter in centimeters?

7

Perimeter (2-steps)

A rhombus has four equal sides, each measuring 75 centimeters. Calculate its perimeter in meters.

8

Perimeter (2-steps)

A rectangular poster is 80 centimeters long and 0.5 meters wide. What is its perimeter in millimeters?

9

Perimeter (2-steps)

An equilateral triangle has sides of 0.75 meters each. Find its perimeter in centimeters.

10

Perimeter (2-steps)

A regular decagon has sides of 35 centimeters each. Calculate its perimeter in meters.

11

Perimeter (2-steps)

A parallelogram has two sides of 1.2 meters and two sides of 80 centimeters. Calculate its perimeter in centimeters.

12

Perimeter (2-steps)

A regular heptagon has sides of 0.4 meters each. What is its perimeter in millimeters?

13

Perimeter (2-steps)

An isosceles triangle has two sides of 100 centimeters each and a base of 0.9 meters. Find its perimeter in meters.

14

Perimeter (2-steps)

A rectangular table is 1.5 meters long and 750 millimeters wide. Calculate its perimeter in centimeters.
