1

A triangular garden plot has a base of 6 meters and a height of 4 meters. What is its area?

Area (1-step)

2

An architect is designing a triangular skylight with a base of 3 feet and a height of 2.5 feet. What is the area of the skylight?

Area (1-step)

3

A trapezoid-shaped field has parallel sides of 12 meters and 18 meters, with a height of 8 meters. Calculate its area.

Area (1-step)

4

A decorative banner in the shape of a trapezoid has bases of 30 cm and 45 cm, with a height of 20 cm. What is the area of the banner?

Area (1-step)

5

A parallelogram-shaped lot has a base of 25 meters and a height of 12 meters. What is its area?

Area (1-step)

An artist is painting on a parallelogram canvas with a base of 80 cm and a height of 60 cm. What is the area of the canvas?

6

Area (1-step)

A rectangular swimming pool is 25 meters long and 10 meters wide. What is its area?

7

Area (1-step)

A classroom rug is rectangular, measuring 15 feet in length and 12 feet in width. Calculate its area.

8

Area (1-step)

A square vegetable garden has sides measuring 5 meters each. What is its area?

9

Area (1-step)

A square tile for a mosaic project measures 6 inches on each side. What is the area of one tile?

10

Area (1-step)

A regular pentagon-shaped playground has sides of 10 meters and an apothem (distance from center to midpoint of any side) of 6.88 meters. Calculate its area.

11

Area (1-step)

A pentagonal logo design has sides of 4 cm and an apothem of 2.75 cm. What is the area of the logo?

12

Area (1-step)

A regular hexagonal gazebo has sides measuring 3 meters and an apothem of 2.6 meters. What is its area?

13

Area (1-step)

A honeycomb cell is shaped like a regular hexagon with sides of 3 mm and an apothem of 2.6 mm. Calculate the area of one cell.

14

Area (1-step)

A circular fountain has a radius of 2.5 meters. What is its area? (Use $\pi = 3.14$)

15

Area (1-step)

A pizza with a diameter of 12 inches is being ordered. What is the area of the pizza? (Use π = 3.14)

16

Area (1-step)

A rhombus-shaped kite has diagonals measuring 30 cm and 40 cm. What is the area of the kite?

17

Area (1-step)

A company logo in the shape of a rhombus has diagonals of 8 inches and 6 inches. Calculate its area.

18

Area (1-step)

A kite-shaped garden bed has diagonals of 5 meters and 8 meters. What is its area?

19

Area (1-step)

A decorative kite has a long diagonal of 60 cm and a short diagonal of 45 cm. Calculate its area.

20

Area (1-step)
