1

A rectangular prism has a length of 15 cm, a width of 10 cm, and a height of 20 cm. Calculate its volume and surface area.

Volume (2-stepa)

2

A storage box in the shape of a rectangular prism measures 2 meters in length, 1.5 meters in width, and 1.2 meters in height. Find the volume and surface area of the box.

Volume (2-stepa)

3

A triangular prism has a base area of 25 square cm and a height of 12 cm. What is the volume and surface area of the prism if the perimeter of the base is 20 cm?

Volume (2-stepa)

4

The base of a triangular prism is a triangle with a base of 8 cm and a height of 6 cm. The height of the prism is 15 cm. Calculate the volume and surface area if the perimeter of the base is 22 cm.

Volume (2-stepa)

5

A hexagonal prism has a base area of 30 square meters and a height of 18 meters. Calculate the volume and surface area if each side of the hexagon is 5 meters.

Volume (2-stepa)

6

The base of a hexagonal prism has a side length of 4 cm and an apothem of 3.5 cm. The height of the prism is 14 cm. Find the volume and surface area of the prism.

Volume (2-stepa)

7

A square-based pyramid has a base side length of 10 meters and a height of 12 meters. Find the volume and surface area.

Volume (2-stepa)

8

The base area of a square-based pyramid is 36 square centimeters, and its height is 15 centimeters. Calculate the volume and surface area of the pyramid.

Volume (2-stepa)

9

A cylinder has a radius of 20 cm and a height of 1.2 meters. What is the volume of the cylinder in cubic meters?

Volume (2-stepa)

10

The diameter of a cylindrical water tank is 2.5 meters, and its height is 4.5 meters. Calculate the volume of the tank in cubic centimeters.

Volume (2-stepa)

A cone has a base radius of 30 cm and a height of 1.5 meters. Find the volume of the cone in cubic meters.

11

Volume (2-stepa)

The diameter of the base of a cone is 0.8 meters and its height is 2 meters. What is the volume of the cone in cubic centimeters?

12

Volume (2-stepa)

A sphere has a radius of 50 cm. Calculate the volume of the sphere in cubic meters.

13

Volume (2-stepa)

The diameter of a spherical ball is 1.2 meters. What is the volume of the ball in cubic centimeters?

14

Volume (2-stepa)

A globe has a radius of 60 cm. Find the volume of the globe in cubic meters.

15

Volume (2-stepa)
