Bath sponge	Shark	Bat
Jellyfish	Beaver	Cockchafer
Gibbon	Radiolaria	Tuna
Mole	Zebra	Sparrow
Lion	Rooster	Eagle
Earthworm	Whale	Frog
Mussel	Kangaroo	Salamander
Sturgeon	Seal	Starfish

Snake	Fly	Bee
Millipede	Dragonfly	Woodpecker
Lizard	Cockroach	Butterfly
Spider	Stork	Dugong
Bed bug	Ostrich	Anteater
Tortoise	Pigeon	Lungfish
Crayfish	Platypus	
Crocodile	Duck	

What care do they take of their offspring ?

Take no care of their offspring

Suckle their offspring

Give food to their offspring

In what region of the Earth do they live ?

In hot regions/ Torrid zones

In cold regions/ Frigid zones

In regions which are not cold or hot/ Temperate zones

How do they move ?	Where (in what element) do they live ?
Walking	Land/ Terestrial
Swimming	Water/ Acquatic
Flying	Air
Slithering	
In other ways	

How do they reproduce ?

Eggs/Oviparous

Living young/
Viviparous

In other ways/
Oviviparous

What do they eat?

Plants/
Herbivorous

Animals/
Carnivorous

Plants and animals/
Omnivorous

How the human beings regard them?

Useful

Harmful

Neighter useful nor harmful
